

Product Description: 2' LED Tube Light

Model: OM-LED-TU-2 (8W)

- LED quantity: 138 (DSP type)
- Aluminum Heat Sink
- Available colors:
 - Warm White @ 2600-3700K
 - Natural White @ 4000-4800K
 - Cool White @ 6000-7500K

Specification Data

- Wattage: 8W
- Lumens: 800 LM
- Central Lux: 80-120 Lux/3m CRI 80
- Operational Voltage Range: 100V-277V or AC/DC 12V
- Operational Temperature: <35 deg. C (95 F.)
- Life Hours: >5 years
- Housing temperature: Less than 35°C
- Ambient Temperature: -20 to +45°C
- Replaces: 25 watt T8 Fluorescent
- Net Weight: 0.285KG

Features/Advantages/Considerations:

- High quality, bright output
- Low power consumption
- Very low heat output
- High reliability
- Long life
- Mercury (Hg) free
- Flicker free – Buzz free
- Solid state design
- No ballast or transformer
- Patented aluminum heat sink and optical diffuser
- Shock & vibration resistant
- No ultraviolet emission
- No RF interference
- No fragile glass enclosure
- Initial costs totally offset within 12-28 months, +66% true savings on electricity use will be realized thereafter.
- Lower energy use = less greenhouse gases
- Manufactured in accordance with CE, UL and FCC testing standards

Cost analysis

By switching 1000 Fluorescent tubes to LED tubes, a company can save over \$29,000 per year on lighting expenses, based on energy costs of \$0.12 per kilowatt hour running 24 hours per day!

3 year unconditional warranty

L.E.D. technology has been proven to be extremely reliable, over long periods of time, with a very low failure rate. If failure does occur in any part of our unit, we will (for 3 years from the date of installation) replace the bulb or power supply free of charge, so it will be fully operational again.
